Update date: October 9, 2024.

New services available in electronic prescription of the National Health System	
	Dispensation discard
	Preventive block by the pharmacist
	Confidentials (CA Andalusia, Ceuta and Melilla: available only as a dispenser)
	Extemporaneous drugs
	Individualized vaccines
	Active treatment (CA of Andalusia only as Isuer Rol)

New services will be gradually incorporated by the autonomous communities.

These services will be available to people as long as the two autonomous communities involved offer them.

Preparation: Subdirectorato General of Health Information.
